# CaseFlow — Product & Technical Documentation Suite

**Silicon Valley-Grade Architectural & Engineering Reference**

*Version 2.5 · Executive, Product & System Specifications*

## 📚 Documentation Index

Welcome to the official **CaseFlow Documentation Suite**. This folder contains the complete, highly detailed specifications for CaseFlow's product requirements, technical architecture, UI/UX experience brief, backend schema definitions, and chronological implementation history.

| # | Document Title | Description | Primary Audience |
|---|---|---|---|
| :-: | :--- | :--- | :--- |
| **01** | [**Product Requirement Document (PRD)**] (01_Product_Requirement_Document.md) | Executive summary, target personas, core modules (Case Dossier, Court Diary, Evidence Lab, Gemini AI, BarDesk), NFRs, and RICE scoring matrix. | Product Managers, Executive Leadership, Founders |
| **02** | [**Technical Requirement Document (TRD)**] (02_Technical_Requirement_Document.md) | System architecture, Flutter/Dart technical stack, Repository pattern, Edge Functions, Cloudflare R2 integration, and performance benchmarks. | System Architects, Lead Engineers, DevOps |
| **03** | [**App Flow & UI/UX Design Brief**] (03_App_Flow_and_UI_UX_Design_Brief.md) | Design principles, dark-mode-first color palette, typography tokens, full screen navigation map, 1-thumb ergonomics, and micro-animations. | UI/UX Designers, Frontend Developers |
| **04** | [**Backend Schema Specification**] (04_Backend_Schema_Specification.md) | Relational database ERD, 38 table DDL definitions, Postgres Row Level Security (RLS) policies, Realtime triggers, and S3 bucket definitions. | Database Administrators, Backend Engineers |

| | | | |
|---|---|---|---|
| **05** | [**Implementation Chronology**] (05_Implementation_Chronology.md) | 5-phase engineering roadmap, milestone history, code refactoring logs, and comprehensive module-to-file traceability matrix. | Project Managers, Tech Leads, QA |
